Professional Summary

Detail-oriented and innovative Software Engineer with over 2 years of experience in designing, developing, and deploying scalable web applications and RESTful APIs. Proficient in JavaScript, Python, and Java with hands-on experience in React, Node.js, and Django. Adept at collaborating in cross-functional Agile teams to deliver high-quality software solutions. Passionate about clean code, performance optimization, and continuous learning.

Technical Skills

- **Languages:** JavaScript, Python, Java
- **Frameworks/Libraries:** React, Node.js, Express.js, Django, Spring Boot
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Version Control:** Git, GitHub, GitLab
- **Tools:** Docker, Jenkins, Postman, VS Code
- **Cloud Platforms:** AWS (EC2, S3), Azure (Basics)
- **Others:** RESTful APIs, CI/CD, Agile/Scrum, Unit Testing

Professional Experience

Software Engineer

TechWave Solutions Pvt. Ltd., Kolkata
Aug 2023 – Present

- Developed and deployed scalable web applications using React and Node.js.
- Built RESTful APIs for internal services, improving system integration by 30%.
- Worked closely with designers and PMs to implement responsive UIs and new features.
- Participated in code reviews, refactoring sessions, and Agile sprint planning.
- Containerized microservices using Docker and deployed on AWS EC2 instances.

Junior Software Developer

InnoTech Systems, Kolkata
May 2022 – Jul 2023

- Created full-stack applications using Django and PostgreSQL.
- Wrote reusable, testable, and efficient code aligned with coding best practices.
- Integrated third-party APIs and handled RESTful services.

- Optimized application performance, reducing load time by 40%.
- Used Git for version control and collaborated via GitHub and Jira in an Agile setup.

Education

Bachelor of Technology (B.Tech) in Computer Science
Maulana Abul Kalam Azad University of Technology (MAKAUT)
Graduation Year: 2021

Certifications

- AWS Certified Cloud Practitioner – 2024
- Full-Stack Web Development Bootcamp – Udemy (React, Node.js, MongoDB)

Projects

Project: TaskMaster (Team Collaboration App)

- Developed a task management tool using React for frontend and Node.js (Express) for backend.
- Implemented JWT-based authentication, role-based access, and real-time notifications.
- Hosted app on AWS and integrated CI/CD pipeline with GitHub Actions.

Professional Development

- Regular participant in local tech meetups and coding hackathons.
- Active contributor to open-source projects on GitHub.
